4. Job Placement and Sustainability: Focus on facilitating job opportunities in the surfing or tourism industry for children who graduate from the program. By connecting them with relevant employment options, we aim to support their self-sufficiency and contribute to the economic well-being of their families.

5. Partnership Development: Establish new partnerships with companies and organizations to secure material donations for the program. By fostering collaborations, we can enhance our resources and ensure the sustained provision of equipment and materials needed for surfing and education.
